

## Want to lock in your spot in programs for the entire session?

For a current brochure season of programs, a person can register for multiple months in a row for classes. This allows an individual to lock in their spot so can easily continue developing their skills from month to month in a class. Please note you will not pay for all the classes you register for up front. They will be scheduled out to auto draft at the appropriate time for paying for those classes. The process can be done online or at the front desk.

Here is an example step by step process to register for multiple sessions of a class online.

**Step 1:** Go to <https://crymca.org/account-login> to login to your account.

**Step 2:** Click on the "Register for Programs" button

**Step 3:** Search for the program you are looking to register. An example would be typing in STEAM to look for and register for STEAM classes.

**Step 4:** Narrow your search by using the categories on the left hand side.

**Step 5:** Once you have narrowed down your search for what you are looking for, select all the programs you would like to register for. You can select multiple months. So, if you want your child to be in a specific class for March, April and May; you can already register them for all three months. Look at the date range for the class to know which month you are registering for.

**Step 6:** Click the "Register" button and then select the member who will be taking the class.

**Step 7:** Confirm your registration or waitlist status if already a full class. Click "Next".

**Step 8:** Read and sign the waiver page. Click "I agree".

**Step 9:** Confirm registration. Click "Next".

**Step 10:** Set up payment by selecting from the accounts on file. Once set up, you will be on the last confirmation page that will show you a listing of dates for your scheduled payments.

So take advantage of this option when you want to guarantee your placement in a class for more than one month and continue developing your skills to the fullest!
